Houston, TX 77070, United States

Ref: Invitation to visit RIMS, Pakistan during May 2015.

Dear Mr. Eric,

It is a great pleasure inviting you for visiting RIMS for the meeting with couple of our key customers, where some business opportunities are near closure. These customers are in the R&D and industrial fields and have many areas of application for technologies from National Instruments and we need to urgently arrange meeting with you.

During the following months, we will also be looking forward to arrange several meetings with universities and research organizations in both cities. Your presence and participation in these discussions will be of great help.

Best Regards,

Muhammad Asad Uddin
Manager RIMS
